	We have not yet provided broadband services.			
2	Please describe each service provided with grant funds. (600 words or less)			
	A Project Coordinator was hired to manage the grant. We have comprised an assessment survey and contracted with IT3 Tech to print and mail the survey to all tribal members (18 years and older). The assessment was based on the reporting questions. CIT is waiting for the results of the responses to assist with moving on to other deliverables. CIT wants to be sure we listen to our members and their needs.

6	Please provide the barriers to broadband use and adoption or broadband infrastructure deployment work that you experienced during the reporting period of this award to date. What steps did you take to address them? (600 words or less)			
	The CIT had a delay with this grant due to the sudden death of Tribal Chairman, Dave Barnett. With the sudden loss of the Tribal Chairman, the tribe had to reassess work and staff. It wasn't until October 2022 that a Project Coordinator was hired. The Project Coordinator, with help from IT Director, had to plan on what to do first and understand the "why" of the grant on "what" was the vision.			
7	Please describe whether or not your organization connected NOFO purpose areas to broadband adoption and use or broadband infrastructure deployment work. (600 words or less)			
	CIT has a Use and Adoption project with the goal of our members having access to attend digital training and council meetings virtually by providing each member (18 years and older) with an electronic device. Our projects will promote the NOFO purpose areas of affordable broadband programs, such as free or reduced-cost broadband service and preventing disconnection of existing broadband services; access to flexible training to keep skills fresh and relevant; quality technical support, and access to applications and online services.			
8	Please describe your project's achieved accomplishments during this reporting period. (600 words or less)			
	CIT has hired a Project Coordinator which took more time than anticipated. An assessment survey was composed, printed, and mailed to all members 18 years of age and older. The assessment survey reflects the questions on the Technical Report. Out of respect to our Tribal Council, we have their input and approval of the questions asked. Having the			

	survey assessment approved and mailed was a great accomplishment since this will tell us what our members need.
