(Please attach associated shapefiles of geographic areas (600 words or less) FSST has provided prepaid internet service to 72 tribal households, and 1 Tribal business, during this past year.			
2	Please describe each service provided with grant funds. (600 words or less) In the past year, FSST procured and distributed 66 laptop computers to Tribal households; Prepaid 5 year internet service to 72 households and 1 Tribal business; 1 Community Training Sessions was offered to help educate on the capabilities of the distributed devices and internet service.			
3	If applicable, please list subcontractors and describe how they expended funds. (600 words or less) One Contractor received grant funds during the reporting period. Valley FiberCom, received grant funds to prepay for internet services for 72 households and 1 Tribal business. FSST and Valley FiberCom provided 1 Community training session.			
4	Please describe how the recipient and subrecipient (if applicable) expended the funds. (600 words or less) FSST procured and distributed 66 laptops to Tribal households; FSST purchased prepaid 5 year broadband subscriptions for 72 Tribal households and 1 Tribal business through Valley FiberCom.			
5	If applicable, please list each subrecipients that received a subgrant through funding. (600 words or less) NA			
6	Please provide the barriers to broadband use and adoption or broadband infrastructure deployment work that you experienced during the reporting period of this award to date. What steps did you take to address them? (600 words or less) Dangerous winter storms and COVID-19 outbreaks in the community drastically slowed the distribution of laptops, and training sessions. The biggest barrier to broadband use is communication and education. Additional barriers to service have been the availability of contractors to place fiber drops to tribal member locations. This has been addressed by Valley FiberCom, and the secured contractors are actively placing drops as we promoted the adoption of broadband in our tribal community.			
7	Please describe whether or not your organization connected NOFO purpose areas to broadband adoption and use or broadband infrastructure deployment work. (600 words or less) During the reporting period, FSST and Valley FiberCom held a digital literacy training seminar, teaching those in attendance how to gain access to free streaming services, local news and weather information with their Gigabit internet connection. The seminar also helped educate and enroll 9 more tribal households in the prepaid broadband and laptop program. FSST also procured broadband services for the new Tribal Long Term Care facility providing internet services to the first Tribal member patients at the facility. 72 tribal member households are now running on prepaid gigabit internet service by Valley FiberCom. 66 Laptop devices were distributed to Tribal households giving them access to the full potential of the internet service.			
8	Please describe your project's achieved accomplishments during this reporting period. (600 words or less) 72 tribal members are currently utilizing gigabit broadband service. As FSST and Valley FiberCom continually work to promote the adoption of internet, we expect to achieve the adoption projections. 100% of the FSST reservation area has Gigabit fiber broadband available to it, so we will focus mainly on training and informative seminars for our			

	members for the rest of the project period. Beyond the adoption piece, sustainability will also be the focus of future classes planned by FSST and instructed by Valley FiberCom.
