1	Provide the number of locations or geographic areas at which broadband service was provided using the grant funds. (Please attach associated shapefiles of geographic areas (600 words or less) At the end of this reporting period, 64 households were provided subsidized broadband service.				
2	Please describe each service provided with grant funds. (600 words or less) The project involves two main components. The first, subsidized broadband service, provides broadband service to tribal members, as well as equipment to access broadband, to areas where internet service is currently available. This is a placeholder while the second component of service, a broadband feasibility study, is completed to provide a path forward to permanent broadband access for all tribal members.				
3	If applicable, please list subcontractors and describe how they expended funds. (600 words or less) Katmai Preparedness Solutions LLC is the subcontractor that is funded for the feasibility study, they have expended funds for technical planning and assistance for the feasibility study.				
4	Please describe how the recipient and subrecipient (if applicable) expended the funds. (600 words or less) N/A				
5	If applicable, please list each subrecipients that received a subgrant through funding. (600 words or less) N/A				
6	Please provide the barriers to broadband use and adoption or broadband infrastructure deployment work that you experienced during the reporting period of this award to date. What steps did you take to address them? (600 words or less) Our current project plan provides for internet service to eligible households. Out of approximately 200 eligible households, only 64 have taken advantage of the service. We are currently increasing outreach including personal phone calls and follow up to tribal members to increase adoption. As a result of this difficulty, we have requested and been approved for an extension to the performance period.				
7	Please describe whether or not your organization connected NOFO purpose areas to broadband adoption and use or broadband infrastructure deployment work. (600 words or less) This project combines use and adoption by providing free broadband service while the planning process takes place for a long-term solution.				
8	Please describe your project's achieved accomplishments during this reporting period. (600 words or less) During this period, 64 households have been provided broadband service and the planning process is approximately 2/3 complete. The planning process will be completed by the end of the third quarter of 2023, while use and adoption will continue, per the extension request, until May 2025.
